Maretron Adds Danish Distributor

PHOENIX, July 1, 2009 – Maretron, a leading developer and manufacturer of marine electronic networked instrumentation, announced today the addition of a national distributor for Denmark: Lyngaa Marine.

“Denmark has always been close to my heart having lived there during my years of managing Raytheon Marine Europe,” says Larry Anderson Vice President of Sales and Marketing at Maretron. “We are pleased to bring on board a company as capable as Lyngaa Marine with their extensive background in working with boatbuilders and chandleries.”

This latest distributor appointment in Denmark is in agreement with a Maretron strategy that began earlier this year. Commencing January 2009, Maretron had embarked on a program within Europe to appoint “classical” country distributors that would develop a sales and technical support capability located within the geographic market they were to serve.

To view a complete list of all Maretron distributors in Europe and elsewhere, visit us online at www.maretron.com

For more information on Maretron in Denmark or Lyngaa Marine: please contact Per Christiansen, Managing Director of Lyngaa Marine.
