## Maretron Reduces Price of its Popular N2KView<sup>®</sup> Software

**PHOENIX**, May 1, 2009 – Maretron announces a significant price reduction of the standard version of its vessel monitoring software (N2KView<sup>®</sup>). The new price of \$495.00 MSRP for N2KView-SC is half the previous price of \$995.00. N2KView<sup>®</sup> is an attractive and simple to use software program operating on Windows XP or Vista platforms displaying NMEA 2000<sup>®</sup> data in either factory preset screens or user definable screens. N2KView<sup>®</sup>, utilizing NMEA 2000<sup>®</sup> networks, brings vessel monitoring into an affordable price range heretofore only priced at a level affordable for mega yachts.

N2KView<sup>®</sup> provides a host of data for vessel monitoring from navigation, engine, tanks, Gensets, etc. Furthermore, this software product offers security features with sensors that protect against smoke, fire, gas, vessel intrusion and theft. N2KView<sup>®</sup> also adds user defined backgrounds where vessel monitored data can be directly overlaid on a ship's outline giving the captain and crew vital information about the location of potential trouble spots like bilge water levels, smoke alarms, carbon monoxide alarms, lights, and more.

“Maretron's N2KView<sup>®</sup> software has become the industry's premier vessel monitoring software for all size and style boats”, says Larry Anderson Vice President of Sales and Marketing. “With features like video, user defined backgrounds, comprehensive alarms and complete monitoring capabilities; Maretron is providing an extremely cost effective and all-inclusive vessel monitoring system.”

Another feature included in N2KView<sup>®</sup> is the ability to save and share favorite screens. With this feature, Maretron users now have the ability to collect favorite screens as they are developed for a specific vessel and reuse them at a later date, saving both time and money. Any future N2KView<sup>®</sup> releases allows for existing users to upgrade to the latest version by simply downloading this from Maretron's web page at no charge.

*Please visit Maretron at the following 2009 boat shows:*

- Trawler Fest, May 7-9, Anacortes, WA
- NMEA 2009 Convention, September 30 - October 3, Fort Myers, FL
- IBEX, Oct. 12-14, Miami Beach, FL
- Fort Lauderdale International Boat Show, Oct. 29 - Nov.2, Miami, FL
