Maretron Updates their GPS Products to the Latest World Magnetic Model (WMM2010)

PHOENIX, Feb 17, 2010 – Maretron announces the very latest in GPS technology with the update of all their GPS products to the latest World Magnetic Model (WMM2010).

Maretron is now shipping its newest GPS antenna/receivers (GPS200s) with the most up-to-date World Magnetic Model available.”, says Mr. Larry Anderson, Maretron’s VP of Sales & Marketing. “Furthermore, existing Maretron GPSs in the field can be upgraded to provide the most accurate variation data available using Maretron’s NMEA 2000®/USB gateway (USB100).”

To learn more about WMM2010, please visit this link:

<http://www.ngdc.noaa.gov/geomag/WMM/DoDWMM.shtml>

Maretron's GPS200 is a state-of-the-art 32 channel GPS antenna/ receiver capable of producing five position fixes per second. The GPS200 has unprecedented sensitivity and can even be mounted underneath a fiberglass deck. An additional benefit of the GPS200 is that it broadcasts precision magnetic variation information using the current position and World Magnetic Model (WMM2010).

The GPS200 automatically decodes GPS correction signals from Satellite Based Augmentation Systems (SBAS) including the North American Wide Area Augmentation System (WAAS), the European Geostationary Navigation Overlay System (EGNOS), or the Asian Multifunctional Transport Satellite based Augmentation System (MSAS) to provide better than 2.5m accuracy.

The GPS200 is easily mounted to any 1" standard marine mount with its standard 1"-14" male threads. It can also be mounted directly to a deck.

For more information please visit Maretron at the following 2010 boat shows:

- *PassageMaker Trawler Fest: May 20-22, 2010, Anacortes, WA*
- *IBEX: Sept 28-30, 2010, Louisville, KY*
- *Ft. Lauderdale International Boat Show: Oct 28 – Nov 1, 2010, Ft. Lauderdale, FL*

About Maretron

Maretron designs, manufactures and markets leading-edge networked electronics for the marine marketplace. Maretron’s products are designed to the open industry NMEA 2000® standard, which allows electronic equipment from diverse manufacturers to be networked together for sharing information throughout the vessel. Maretron’s corporate philosophy is to provide premium quality, state-of-the-art marine electronics that work together with traditional navigation techniques for the highest level of safety and performance while boating. Visit www.maretron.com for more detailed product information.
