Maretron Introduces Fluid Pressure Monitoring for N2KView® System

PHOENIX, November 1, 2010 – Maretron, LLP introduces an ability to monitor all types of fluid pressure on boats and track those pressure levels on dedicated marine displays, PC monitors, iPhones, Androids, Pads, etc. In its continuing function as an all-inclusive vessel monitoring system, Maretron's N2KView® can now provide all types of fluid pressure levels. This newest introduction of the FPM100 Fluid Pressure Monitoring device further expands Maretron's marine tank measurement offerings. The FPM100 carries an MSRP of \$395 for the smart box only and \$149 for each required optional probe that connects to one of its six channels.

Maretron's Fluid Pressure Monitor (FPM100) is used to adapt up to six pressure transducers to the NMEA 2000® network (pressure transducers sold separately). This allows you to observe fluid pressures and tank levels anywhere on the vessel where there are NMEA 2000® compatible displays. With the appropriate transducer, the FPM100 reports either pressure or vacuum for a variety of applications including water pressures, oil pressures, hydraulic pressures, or system vacuum for detecting clogged filters.

The FPM100 also has a tank level mode, so that fluid levels in a tank can be monitored via a pressure transducer mounted at the bottom of the tank and transmitted over the NMEA 2000® network. This allows you to monitor the fluid levels in tanks that are extremely deep, have internal structures, or are otherwise not suited for other tank level sensing technologies. In this mode, the FPM100 can be calibrated for irregular tank shapes so that you know the true level of the tanks.

For more information about Maretron, please visit us at the following 2010 & 2011 boat shows:

- *Ft. Lauderdale International Boat Show: Oct 28 – Nov 1, 2010, Ft. Lauderdale, FL (Booth 303/304)*
- *METS: Nov 16-18, 2010, Amsterdam, Netherlands (Stand 01:115)*
- *Pacific Marine Expo: Nov 18-20, Seattle, WA (Booth 1529)*
- *New Orleans Workboat Show: Dec 1-3, New Orleans, LA (Booth 3207)*
- *Seattle Boat Show: Jan 21-30, Seattle, WA (Booth TBA)*
- *Miami International Boat Show: Feb 17-21, Miami Beach, FL (Booth 1648)*

About Maretron

Maretron® designs, manufactures, and markets leading-edge vessel monitoring and control systems for recreational and commercial boating. Our products are designed to the open industry NMEA 2000® standard, which allows electronic equipment from diverse manufacturers to be networked together to share information throughout the vessel. For detailed product information, please visit www.maretron.com for more information.
