

Maretron Introduces 8" (TSM800) and 13.3" (TSM1330) Vessel Monitoring and Control Touchscreens

PHOENIX, August 10, 2012 – Today Maretron announced the release of two new touchscreens dedicated to vessel monitoring and control of the systems commonly found onboard commercial and recreational vessels. Kip Wasilewski, Maretron's Director of Sales for the Americas said, "Maretron continues to introduce products that simplify the way people interact with increasingly more complex vessels. There are many things that need to be monitored on a vessel and at times it can be overwhelming. For example, is there low engine oil pressure or high coolant temperature, or do the fuel filters need changing, or is there smoke, fire, or carbon monoxide, or high bilge water, just to mention a few of the many critical parameters. With the introduction of the new TSM800 and TSM1330 touchscreens together with Maretron's vessel monitoring and control software (N2KView®), Maretron provides a common user interface to all these systems that automatically and continuously monitors each and every parameter to warn you at the slightest hint of a problem."

The TSM800 and TSM1330 are ruggedized for marine use and include solid state disk drives to withstand the pounding associated with waves. And since the touchscreens dissipate less than 30 watts, there is no need for internal cooling fans that are noisy and wear out causing electronics to overheat and fail. The touchscreens are suitable for outdoor use with waterproof front and optically bonded glass for excellent visibility. The touchscreens come preloaded with Maretron's N2KView® vessel monitoring and control software, although separate licensing is required and administered by Maretron Internet Protocol Gateway (IPG100).

The TSM800 and TSM1330 are immediately available for shipping to Maretron's trade customers.

To see these and other Maretron products, please visit Maretron or Maretron's distributor at the following 2012 boat shows:

- *Stockholm Boat Show: Aug 30 – Sept 2, 2012 Stockholm,*
- *HISWA Boat Show: Sept 4-9 2012, Amsterdam, The Netherlands*
- *Bater/Sjoen Boat Show: Sept 6-9, 2012, Oslo, Norway*
- *Salon Nautique Boat Show: Sept 12-17, 2012, Cannes, France*
- *Grand Pavois de la Rochelle: Sept 19-24, 2012, La Rochelle, France*
- *NMEA Convention: Sept 26-27, 2012, Orlando, Florida*
- *Auckland Boat Show: Sept 27-30, 2012, Auckland, New Zealand*
- *SNAME Boat Show: Oct 24-26, 2012, Providence RI.*
- *Ft. Lauderdale International Boat Show: Oct 25-29, 2012, Ft. Lauderdale, FL*
- *METS: Nov 13-15, 2012 Amsterdam, The Netherlands*
