CARLING TECHNOLOGIES NAMES NEW MARINE SALES MANAGER

Christian Redditt Joins Manufacturer of Marine Vessel Monitoring and Control Solutions

FOR IMMEDIATE RELEASE: JUPITER, FL. (February 8, 2021) – Carling Technologies is pleased to announce that Christian Redditt has been appointed as the new Sales Manager, Marine Electronics. Redditt will be in charge of implementing and managing the sales activities and identify new market opportunities for the Maretron®, OctoPlex™ and MPower® brands in the United States. “Christian brings a wealth of experience to our marine electronics brands,” Frank Emmett, Vice President, Software - Monitoring & Control Systems said in a statement. In addition to managing marine sales he will be responsible for the strategic development and launch of MPower, a digital switching platform that delivers simple, intuitive control over the increasingly complex systems found on today’s vessels.

Prior to joining Carling’s Marine Electronics group, Christian held the position of Technical Operations Manager for Lumishore, a manufacturer of LED lighting solutions where he was responsible for sales, technical support, and special projects for key OEMs and dealers in the Americas. Redditt brings over nineteen years of leadership experience with expertise in OEM supply chain management, national sales, technical support and dealer sales.

“It’s a privilege to have the opportunity to work for a company with a legacy of developing NMEA 2000® solutions designed to provide full functionality, monitoring and control of marine vessels,” stated Redditt. “This is a very exciting time in the company’s history, and I look forward to being part of the launch of several new products and technology,” Redditt added.

Carling Technologies has established successful long-term partnerships synonymous with innovation and quality. Carling plans to continue to expand vessel monitoring and control through new product introductions, constant improvements and upgrades of current products and software.

About Maretron[®], a Carling Technologies Brand

Maretron products are the world-class standard in vessel monitoring and control. Designed to harness the power of the NMEA 2000[®] marine networking protocol, Maretron seamlessly integrates a wide array of instrumentation, electronics and boat systems. The 2019 consolidation of Maretron into Carling Technologies strengthens the Maretron brand, expands the product portfolio and provides global product support to OEMs, dealers, and boaters worldwide. All Maretron products are tested and certified to the IEC 60945 standard for Maritime Navigational and Radiocommunication Equipment and Systems. maretron.com

About Carling Technologies
