

How do I display Tank level on a DSM410?

Article Number: 691 | Rating: Unrated | Last Updated: Wed, Jul 11, 2018 6:07 PM

The DSM250 supports the display of information for up to sixteen tanks types (16 fuel plus 16 water,etc.).

Tank sub-categories include:

Capacity – displays the fluid capacity of the tank

Level – displays the level of fluid in the tank as a percentage of its capacity

Remaining – displays the amount of fluid in the tank

Click on the quick video in attachments to see how you can display all three parameters from one tank on a single DSM page.
