

# How do I set the WSO100 installation offset using Maretron's DSM150, DSM200, or DSM250 display?

You set the WSO100 installation offset using Maretron's DSM150, DSM200, or DSM250 display in the following way:

Enter menu mode, scroll to "Configuration..." and press

Scroll to "Device Configuration..." and press

Scroll to the row containing the WSO100 and press

Scroll to "Installation Offset:" and press

Scroll up or down until you set the appropriate installation offset and press
