

I see that Maretron's DSM150 and DSM250 displays have a DCM100 configuration setting called "NMEA 2000 PGN Enable/Disable..."; what is this?

Maretron's DSM150 and DSM250 displays have a DCM100 configuration setting called "NMEA 2000 PGN Enable/Disable...", which is used to turn on and off specific messages that are transmitted by the DCM100.
