

I know that the TLA100 uses resistive tank sensors; who manufactures resistive tank sensors?

To find manufacturers who provide resistive tank senders compatible with the TLA100, search the internet for these terms: fuel and sender, or try these web sites:

- <http://www.wemausa.com>
- http://www.moellermarine.com/aftermarket/fuel_systems/fuel_senders
-
- <http://www.vdo.com>
